

As for additional books for practice problems, ALMOST ANY PHYSICS TEXTBOOK is good. Here are some found in the university library:

Note: you do NOT need the whole book, just the relevant chapters

Kane, Sternheim: Physics (third edition)

R. Hutchings: Physics

G.S. Landsberg: Elementary Textbook on Physics – volume 1.

Gettys, Keller, Skove: Classical and Modern Physics

Giancoli: Physics

Blatt: Principles of Physics

Vannay: Fizika összefoglaló és példatár (in hungarian)
